

ABOUT US

INTRODUCTION

WHO WE ARE

WHAT WE'RE MADE OF

C-Zone first takes place in 1999, when the company began life as compuzone systems. It's our custom-built pc's for gamers that formed the first blips on the map back in the early days.

We entered the elite pc market well before it became the next big thing. We were also known for the power we gave our customers. The simple idea of "more hardware for less money".

In a world of fast-paced, throw-away tech, stories of our elite pc building strength spread in a flash and our services were soon sought after by home and business alike.

20 years later we are still doing what we love. It has been a thrilling ride and we wish to continue this amazing journey for years to come!

MISSION

Use business to inspire and aspire everyone to move forward with technology and innovative products.

VISION

To achieve highest customer satisfactory and to continue broadening our range of products that provide values to consumers.

VALUES

Honest, humble, simple. nimble. This idea has infuse with so much success within our organisation as well as our front line, it has become our daily mantra.
